

PROFESSIONAL STYLE

UP27

Contemporary lines—accented by seamless welded construction using 304 stainless steel—provide a unique and lasting statement

Powerful, quiet internal and external blowers with HVI certified performance

Integrated internal blower makes installation fast and easy—flexible design allows the blower to exhaust through the top or back of hood for ducted applications

Evolution™ filters combine baffle design with the efficiency of mesh for the ultimate in filtration

Halogen lamps deliver brilliant surface lighting (50W halogen lamps included)

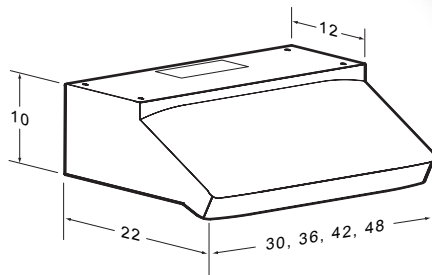

Hidden variable setting controls with a memory feature adjust speed and lighting levels

Heat Sentry™ is a smart feature that detects excessive heat and adjusts speed to high automatically

Optional non-ducted recirculation kit for use with internal blower models.

When building the kitchen of your dreams, why not take it all the way. Now get the features and performance of larger pro-style models, but in a more compact under-cabinet profile.
