

Designing a La Cornue
to fit a more modest budget
was no easy task.

In fact, it took us 97 years.

Since 1908, La Cornue has strived to bring you the centuries-old tradition of French culinary excellence. And with the new CornuFé line, they are finally able to offer that great tradition without great expense. Boasting five burners and two ovens, every CornuFé is designed to provide La Cornue's uncompromising dedication to gastronomic perfection, for a more modest budget. Plus, with the expertise of premier distributor Purcell Murray, the CornuFé you want will be available at a location near you – no matter where you are.

La Cornue 1908
