

PROFESSIONAL COOKTOP ELECTRIC GRIDDLE

Thermador | *An American Icon*

Titanium-surface electric griddle
Also available on PCD484EE cooktop
and PRD484EE Pro Grand® range.

FEATURES & BENEFITS

Powerful, 8-pass, 1600 watt electric element transfers and radiates thermo heat across the entire griddle for even heat distribution.

Powerfully Quiet® electrical element that is faster and safer compared to gas ignition systems.

Precision thermostat is located at the top of the griddle to accurately control the temperature.

Non-stick, non-rust titanium surface is easy to clean and dishwasher safe.

State-of-the-art "black coating" under the griddle plate creates maximum heat absorption for faster cooking performance.

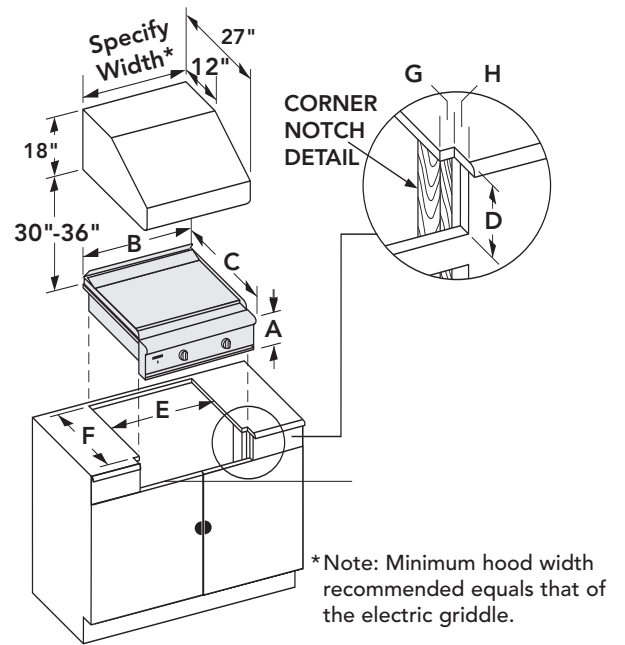

The griddle element is fully insulated and is inset in an aluminized steel tray for controlling and directing heat into the griddle plate.

Easy installation and stand alone unit. Perfect accompaniment to Professional Series range or cooktop.
